

NAME OF THE PROGRAMME	PROGRAMME OUTCOME	COURSE OUTCOME
<p><b>Masters of Science in Community Health Nursing</b></p>	<ul style="list-style-type: none"> <li>• <b>PO1-</b> Utilize/apply the concepts, theories and principles of nursing science</li> <li>• <b>PO2-</b> Demonstrate advance competence in practice of nursing</li> <li>• <b>PO3-</b> Practice as a nurse specialist.</li> <li>• <b>PO4-</b> Demonstrate leadership qualities and function effectively as nurse educator and manager.</li> <li>• <b>PO5-</b> Demonstrate skill in conducting nursing research, interpreting and utilizing the findings from health related research</li> <li>• <b>PO6-</b> Demonstrate the ability to plan and effect change in nursing practice and in the health care delivery system.</li> </ul>	<p style="text-align: center;"><b><u>NURSING EDUCATION</u></b></p> <ul style="list-style-type: none"> <li>• <b>CO1-</b> Explain the aims of education, philosophies, trends in education and health: its impact on nursing education.</li> <li>• <b>CO2-</b> Describe the teaching learning process.</li> <li>• <b>CO3-</b> Prepare and utilize various instructional media and methods in teaching learning process.</li> <li>• <b>CO4-</b> Demonstrate competency in teaching, using various instructional strategies.</li> <li>• <b>CO5-</b> Critically analyze the existing nursing educational programs, their problems, issues and future trends.</li> <li>• <b>CO6-</b> Describe the process of curriculum development, and the need and methodology of curriculum change, innovation and integration.</li> </ul>

	<ul style="list-style-type: none"> <li>• <b>PO7-</b> Establish collaborative relationship with members of other disciplines</li> <li>• <b>PO8-</b> Demonstrate interest in continued learning for personal and professional advancement.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>CO7-</b> Plan and conduct continuing nursing education programs.</li> <li>• <b>CO8-</b> Critically analyze the existing teacher preparation programs in nursing.</li> <li>• <b>CO9-</b> Demonstrate skill in guidance and counseling.</li> <li>• <b>CO10-</b> Describe the problems and issues related to administration of nursing curriculum including selection and organization of clinical experience.</li> <li>• <b>CO11-</b> Explain the development of standards and accreditation process in nursing education programs.</li> <li>• <b>CO12-</b> Identify research priorities in nursing education.</li> <li>• <b>CO13-</b> Discuss various models of collaboration in nursing education and services.</li> <li>• <b>CO14-</b> Explain the concept, principles, steps, tools and techniques of evaluation</li> <li>• <b>CO15-</b> Construct, administer and evaluate</li> </ul>
--	---	--

		<p>various tools for assessment of knowledge, skill, and attitude.</p>
		<p><b><u>ADVANCE NURSING PRACTICE</u></b></p> <ul style="list-style-type: none"> <li>• <b>CO1-</b> Appreciate and analyze the development of nursing as a profession.</li> <li>• <b>CO2-</b> Describe ethical, legal, political and economic aspects of health care delivery and nursing practice.</li> <li>• <b>CO3-</b> Explain bio- psycho- social dynamics of health, life style and health care delivery system.</li> <li>• <b>CO4-</b> Discuss concepts, principles, theories, models, approaches relevant to nursing and their application.</li> <li>• <b>CO5-</b> Describe scope of nursing practice.</li> <li>• <b>CO6-</b> Provide holistic and competent nursing care following nursing process approach.</li> <li>• <b>CO7-</b> Identify latest trends in nursing and the basis of advance nursing practice.</li> </ul>

- **CO8-**  
Perform extended and expanded role of nurse.
- **CO9-**  
Describe alternative modalities of nursing care.
- **CO10-**  
Describe the concept of quality control in nursing.
- **CO11-**  
Identify the scope of nursing research.
- **CO12-**  
Use computer in patient care delivery system and nursing practice.
- **CO13-**  
Appreciate importance of self development and professional advancement.

**COMMUNITY HEALTH NURSING –I**

- **CO1-**  
Appreciate the history and development in the field of Community Health and Community Health Nursing.
- **CO2-**

		<p>Appreciate role of individuals and families in promoting health of the Community.</p> <ul style="list-style-type: none"> <li>• <b>C03-</b> Perform physical, developmental and nutritional assessment of individuals, families and groups.</li> <li>• <b>C04-</b> Apply the concepts of promotive, preventive, curative and rehabilitative aspects of health while providing care to the people.</li> <li>• <b>C05-</b> Apply nursing process approach while providing care to individuals, families, groups and community.</li> <li>• <b>C06-</b> Integrate the concepts of family centered nursing approach while providing care to the community.</li> <li>• <b>C07-</b> Recognize and participate in the management of emergencies, epidemics and disasters.</li> <li>• <b>C08-</b> Apply recent technologies and care modalities while delivering community health nursing care.</li> </ul>
--	--	---

- 
- **CO9-**  
Appreciate legal and ethical issues pertaining to community health nursing care.
  - **CO10-**  
Conduct community health nursing care projects.
  - **CO11-**  
Participate in planning, implementation and evaluation of various national health and family welfare programmes at local, state and the national level.
  - **CO12-**  
Incorporate evidence based nursing practice and identify the areas of research in the community settings.
  - **CO13-**  
Participate effectively as a member of Community Health team.
  - **CO14-**  
Coordinate and collaborate with various agencies operating in the community by using inter-sectoral approach.
  - **CO15-**  
Teach community health nursing to undergraduates, in-service nurses and the

community health workers.

- **CO16-**

Demonstrate leadership and managerial abilities in community health nursing practice

**COMMUNITY HEALTH NURSING II**

- **CO1-**

Appreciate trends and issues related to community health Nursing- reproductive and child health, school health, Occupational health, international health, rehabilitation, geriatric and mental health.

- **CO2-**

Apply epidemiological concepts and principles in community health nursing practice

- **CO3-**

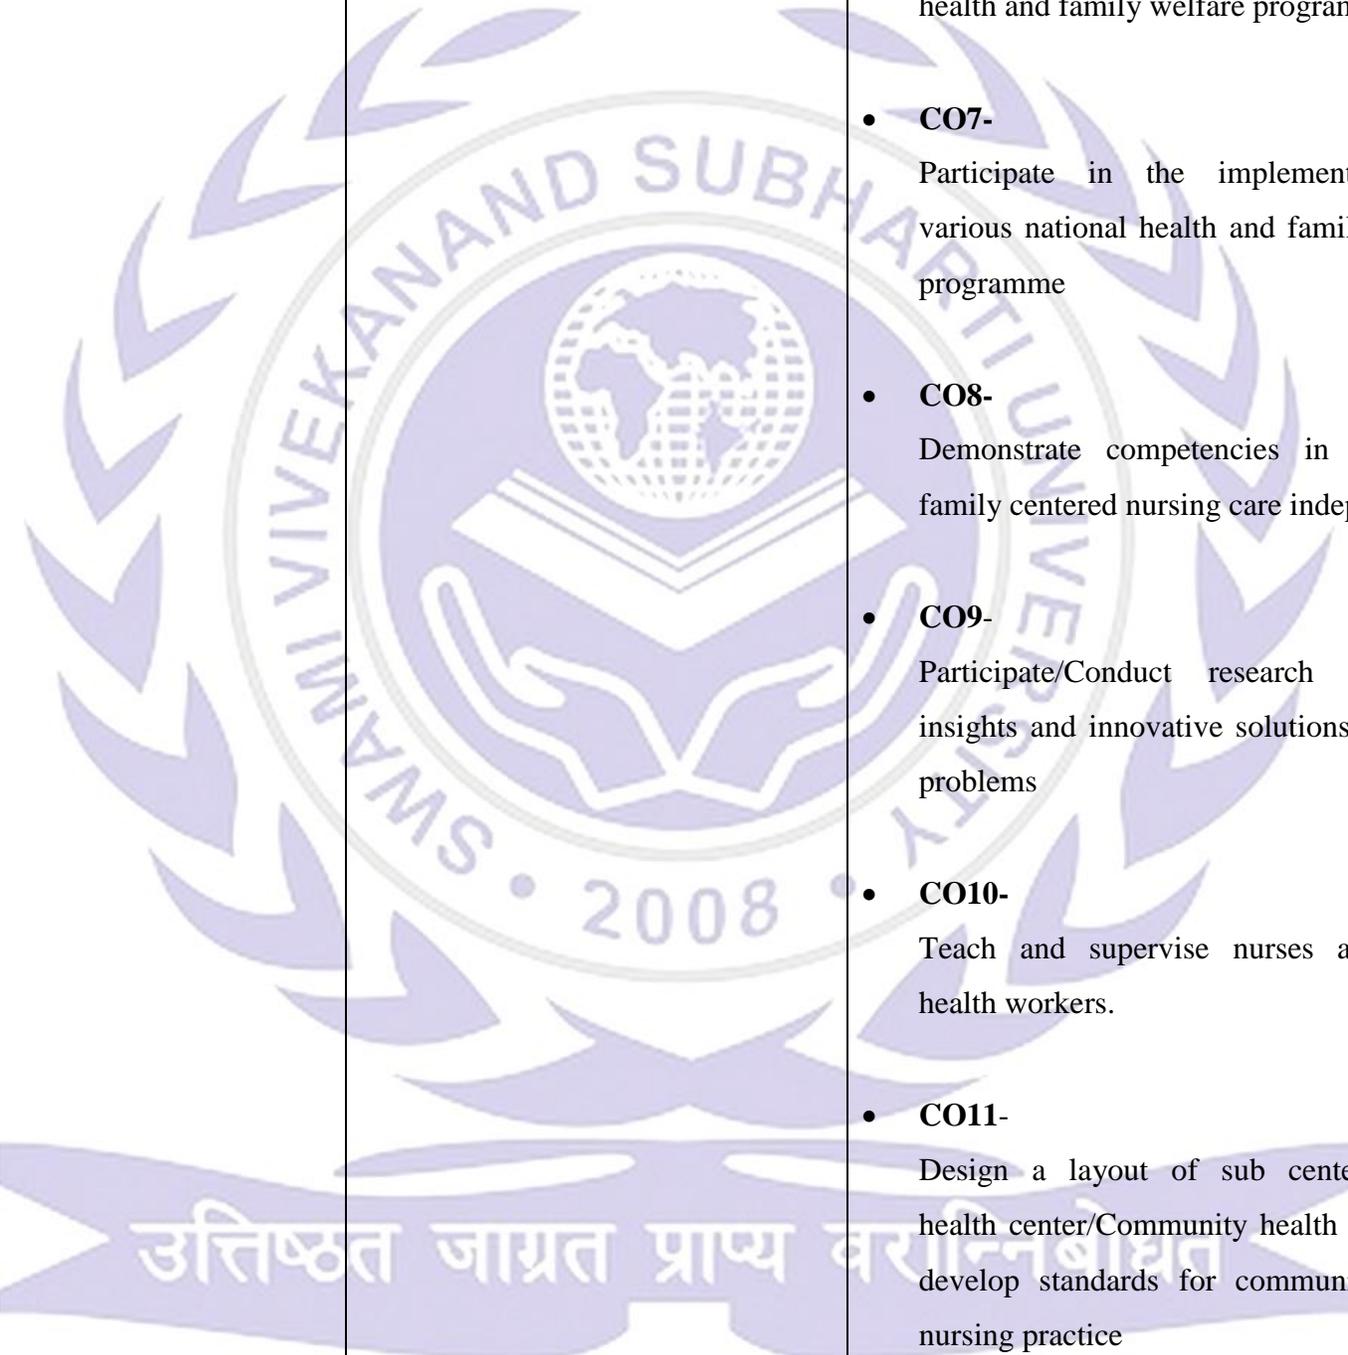

Perform community health assessment and plan health programmes

- **CO4-**

Describe the various components of Reproductive and child health programme.

- **CO5-**

Demonstrate leadership abilities in organizing community health nursing services by using inter-sectoral approach.

		<ul style="list-style-type: none"> <li>• <b>CO6-</b> Describe the role and responsibilities of community health nurse in various national health and family welfare programmes</li> <li>• <b>CO7-</b> Participate in the implementation of various national health and family welfare programme</li> <li>• <b>CO8-</b> Demonstrate competencies in providing family centered nursing care independently</li> <li>• <b>CO9-</b> Participate/Conduct research for new insights and innovative solutions to health problems</li> <li>• <b>CO10-</b> Teach and supervise nurses and allied health workers.</li> <li>• <b>CO11-</b> Design a layout of sub center/Primary health center/Community health centre and develop standards for community health nursing practice</li> </ul>
		<p><b><u>NURSING RESEARCH &amp; STATISTICS</u></b></p> <p><b><u>Part-A Nursing Research</u></b></p> <ul style="list-style-type: none"> <li>• <b>CO1-</b></li> </ul>

Define basic research terms and concepts.

- **C02-**  
Review literature utilizing various sources
- **C03-**  
Describe research methodology
- **C04-**  
Develop a research proposal.
- **C05-**  
Conduct a research study.
- **C06-**  
Communicate research findings
- **C07-**  
Utilize research findings
- **C08-**  
Critically evaluate nursing research studies.
- **C09-**  
Write scientific paper for publication.

**Part B- Statistics**

- **C01-**  
Explain the basic concepts related to statistics

		<ul style="list-style-type: none"> <li>• <b>CO2-</b> Describe the scope of statistics in health and nursing</li> <li>• <b>CO3-</b> Organize, tabulate and present data meaningfully.</li> <li>• <b>CO4-</b> Use descriptive and inferential statistics to predict results.</li> <li>• <b>CO5-</b> Draw conclusions of the study and predict statistical significance of the results.</li> <li>• <b>CO6-</b> Describe vital health statistics and their use in health related research.</li> <li>• <b>CO7-</b> Use statistical packages for data analysis</li> </ul>
		<p style="text-align: center;"><b><u>NURSING MANAGEMENT</u></b></p> <ul style="list-style-type: none"> <li>• <b>CO1-</b> Describe the philosophy and objectives of the health care institutions at various levels.</li> <li>• <b>CO2-</b> Identify trends and issues in nursing</li> <li>• <b>CO3-</b> Discuss the public administration, health</li> </ul>

		<p>care administration vis a vis nursing administration</p> <ul style="list-style-type: none"> <li>• <b>C04-</b> Describe the principles of administration applied to nursing</li> <li>• <b>C05-</b> Explain the organization of health and nursing services at the various levels/institutions.</li> <li>• <b>C06-</b> Collaborate and co-ordinate with various agencies by using multi- sectoral approach</li> <li>• <b>C07-</b> Discuss the planning, supervision and management of nursing workforce for various health care settings.</li> <li>• <b>C08-</b> Discuss various collaborative models between nursing education and nursing service to improve the quality of nursing care</li> <li>• <b>C09-</b> Identify and analyse legal and ethical issues in nursing administration</li> <li>• <b>C010-</b> Describe the process of quality assurance in</li> </ul>
