ORDINANCE No. VII-3A

ORDINANCE RELATING TO STRUCTURE OF THE UNIVERSITY ENROLMENT AND FACULTY /INSTITUTE/ / COLLEGE /DEPARTMENT AND PROGRAMME CODES OF UG/PG/DIPLOMA/PH.D

Chapter-1

GENERAL

1. This Ordinance may be called the "Ordinance relating to structure of the University Enrolment Number, Faculty /Institute/ / College /Department Codes, and Programme Codes of UG/PG//Ph.D./Diploma Courses.
2. The purpose of this ordinance to ensure disciplinary and curricular consistence across all sections employing the same codes.
3. This Ordinance defines Department code and programme code as well as the parameters and process by which programme codes / Enrolment Number /Roll Number may be assigned to courses, and otherwise employed by academic programs, departments, and colleges/schools.
4. This ordinance shall be applicable for all courses of studies of the University from the Academic Session 2024-25.

Chapter-2

STURCTURE OF UNIVERSITY ENROLMENT NUMBER

5. The enrolment number is a unique identification number assigned to each student upon their admission to the University. It serves as a primary identifier throughout the student's academic journey and facilitates various administrative processes, including registration for courses, accessing academic records, and communicating with university officials. Importance of Enrollment Numbers:
 - 5.1. Academic Record Keeping: Enrollment numbers enable the university to maintain accurate records of each student's academic progress, including course registrations,

Handwritten signature and date:
25/10
2024

grades, and degree requirements. This ensures that students' academic histories are documented systematically and can be accessed whenever needed.

5.2. Course Registration: When registering for courses each semester or academic year, students are required to provide their enrollment numbers to complete the registration process successfully. Enrollment numbers help streamline course enrollment procedures and ensure that students are enrolled in the correct courses according to their academic programs.

5.3. Examination and Result Declaration: During examinations, students are required to enter their enrollment numbers on answer sheets and other examination-related documents to ensure accurate identification and grading. Additionally, enrollment numbers are used to announce examination results, allowing students to access their grades conveniently.

5.4. Communication with University Officials: When communicating with university officials regarding academic matters, fee payments, or other administrative issues, students are often required to provide their enrollment numbers for identification purposes. This facilitates efficient communication and ensures that inquiries are addressed promptly.

5.5. Alumni Identification: Even after graduation, enrollment numbers continue to serve as unique identifiers for alumni. Alumni may be required to provide their enrollment numbers when accessing academic transcripts, applying for further studies, or verifying their credentials for employment purposes.

Enrolment Number / Roll number

6. The University Enrolment Number / Roll number assigned to a student shall be a 16 digit code divided into seven distinct parts. The breakup of the code is as described in the following scheme and in the subsequent descriptions;

XX / X/ XX / XXX / XX / XXX / XXX
Part-1: **Part-2:** **Part-2:** **Part-4:** **Part-5:** **Part-6:** **Part-7**

Digit Position	Function	Values	Definition
1 st & 2 nd	Year of Study Code: Student registered for programme of study	0-99	Registration Year of Admission in Academic Programme of University It is a two digit code represents the year of admission for a student e.g. "24" for a student taking admission in academic session 2024-25. For lateral entry

2024-25
